- JSON
- UML

WORK HISTORY

PKF Cooper Parry Sync Interactive
Senior Mobile developer // Birmingham, UK // August 2018 to June 2019

- Developed and maintained several apps for the company and for the company's customers.
- Trained junior devs with weekly study groups I developed and lead.
- Created internal project for use by the companies employees. App included: Suggestion board where users could suggest and like ideas, How is it going section where users got a weekly notification to remind them to anonymously say how they are feeling this week and more.
- Converted our current Connectwise Ticketing system into an app which our customer could use to contact our support lines.
- Designed the backend architecture of a number of apps.
- Examples of work:
  - Cheltenham Racecourse app – Live only when there is a tournament. https://play.google.com/store/apps/details?id=uk.co.prioritysms.CheltenhamRacecourse
  - Greggs Conference App https://play.google.com/store/apps/details?id=uk.co.prioritysms.greggs

- Rate my game – App for rating football players by their coaches and themselves. Provides analytics for all their games and allows messaging between coach and players.
  http://bit.ly/android-rmg NOT LIVE YET
- And many more.

Castleton Technologies PLC
Senior Android developer // Birmingham, UK // May 2017 to August 2018
- Developed and maintained several apps for the company.
- The company focuses on software for Social Housing companies.
- Worked on an EDRM system app and a dynamically created white label app based on a JSON file.
- Created and maintained a white label app the company was reselling to its customers.
- Created a multi tenant app where all customers based on their login details would see different styles in the app and different sections enabled/disabled
- Examples of work:
    - https://play.google.com/store/apps/developer?id=365+Agile+Limited

Sync Interactive
Android developer // Birmingham, UK // August 2015 to May 2017
